

17 JANNUARY 2021

WORLD SNOW DAY
FINAL REPORT

COORDINATED BY

INCLUSION, SPORT & FUN

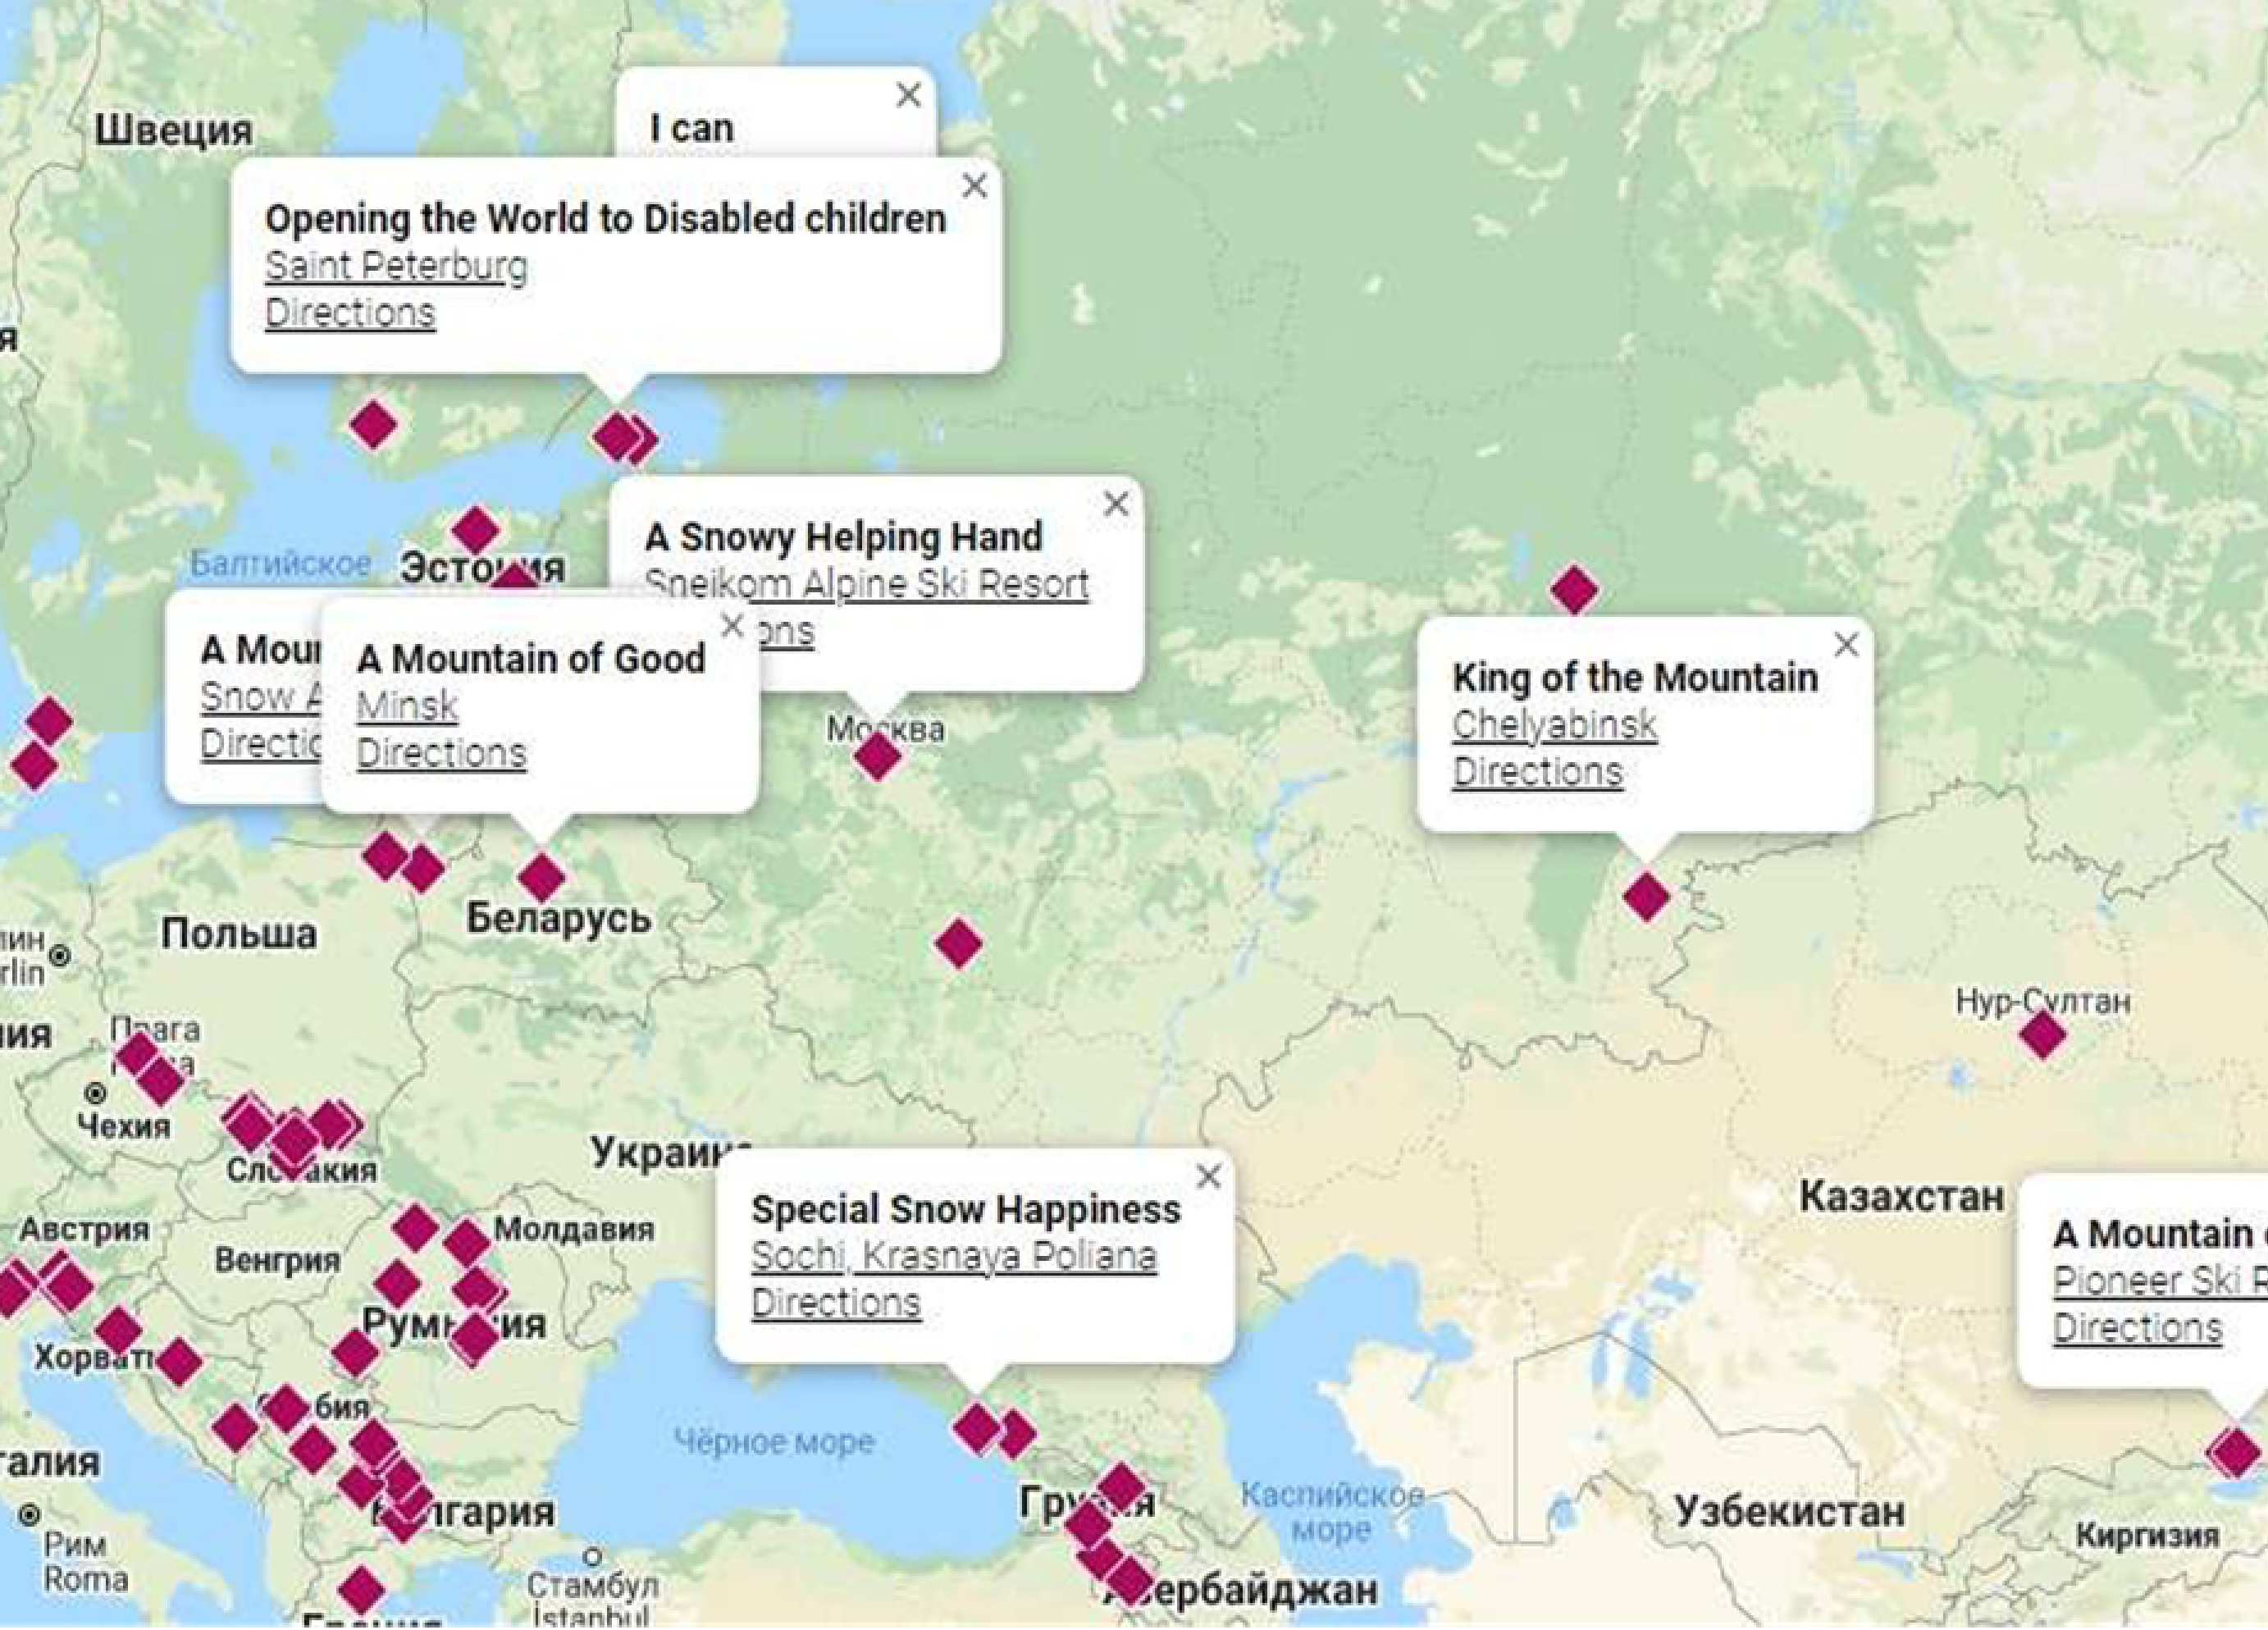

We are happy to share the final report of the first collaboration between FIS and IPS which teamed up to include **children with disabilities** in the World Snow Day.

We decided to join this event with our program "**Katyusha - Ordinary Miracle**" and equipment created and patented by Konstantin Z. Ponomarev to share our values and methodologies.

We specially thanks our colleagues from other cities and countries which joined our team, supported us and took part in this event, **letting to put children not only on skis, but also on roller skates, ice skates** and three-wheels bicycles.
